

## Grants and other sources of funding

We have put together a list of funders that carers can contact regarding financial support for themselves and the people they care for. We have also included some search tools you can use to find other charities and benevolent funds. The list is by no means exhaustive but it may be a useful starting point for you in your search for funding.

### Search tools

Carers can apply to these Funds through their local Network Partner (Carers Trust's network of Carers Centres and Crossroads Care Schemes). You can find contact details of your local Network Partner here on Carers Trust's website: <https://www.carers.org/carers-services/find-your-local-service>

Please bear in mind that not every carer will be able to apply for these grant funds, due to there not being a Network Partner in their area or because the Network Partner can only apply for a limited number of the grants and they are already over-subscribed with requests. If you are not eligible to apply for the Carers Trust grant funds, please find a list of other possible funders below.
